Executive finance professional with 15+ years of experience spanning financial planning & control, multi-entity consolidation, and M&A across high-growth, international groups. I blend hands-on technical rigor (financial modelling, reporting, financial close) with strategic business partnering, turning complex data into insight that senior leaders act on. I thrive in transformation and post-acquisition contexts, working autonomously and treating finance as a genuine lever for growth. I am now targeting exactly this mandate: translating medium-term planning and consolidation into investor-ready insight for a high-growth, acquisition-driven group.
